

Natural Wear Rubber 60 ShoreA

Natural Rubber (NR) also called pure gum rubber is used in a wide range of industries. NR rubber has excellent mechanical properties, low compression set and high resilience. It has excellent dynamic and rebound properties and very good resistance to abrasion.

Colour		Black
Hardness	ASTMD2240	60 +/-5 ShoreA
Tensile Strength	ASTMD-412	15MPA
Elongation	ASTMD-412	400%
Surface		
Density	ASTMD792	1.13g/cm ³
Abrasion	ASTMD-412	150 mm ³
Temperature Range	JIS K6767	In Air: -30°C – +70°C Water: -30°C – +80°C

Main Characteristics:

Elasticity: Excellent

Compression: Excellent

Abrasion: Excellent

Flame: Poor

Fuels: Unsuitable

Ozone: Unsuitable
